

CBR, IISc position advertisement

One project assistant and one post-doctoral position immediately available at Kahali Lab at Centre for Brain Research (CBR), Indian Institute of Science. Salary will be fixed based on experience. **Interested candidates contact Dr. Bratati Kahali (bratati@iisc.ac.in, bratatis@gmail.com).**

Seeking experienced individuals to fill these positions, details given below:

Required Qualifications for Project Assistant:

Minimum of a Bachelor's degree in Computer Science or Statistics (MS) or recognized field of science directly related to the duties of this position.

Coding experience with **Python, C, C++, Perl, R** programming languages.

Candidates having experience working directly with statistical methodology and research design will be given preference.

Required Qualifications for Postdoctoral candidate:

Ph.D. degree in computer science, Bioinformatics/ computational biology, statistics or applied math, or a related field, or equivalent experience. Candidates with **strong coding skills** related to analyses of large genomic data sets generated from next generation sequencing will be preferred. Experience in handling tools related to **genome wide association studies, next generation sequencing** will be given preference.

Applicants should have publication in indexed journals; should be able to multi-task, prioritize efforts, and execute independently- and collaboratively-developed ideas in a fast-paced environment.
