

JOB VACANCY NOTIFICATION FOR THE POST OF SOCIAL WORKER

This is a notification for a job vacancy at The Centre for Brain Research, Indian Institute of Science under a project titled “Alzheimer’s Disease: Understanding mechanisms for early diagnosis and treatment”, funded by the Tata Trusts.

We are looking for a post graduate in social-work who is keenly motivated to work with a geriatric group and is willing to assume the following responsibilities:

- Volunteer recruitment for the study (through awareness programmes)
- Scheduling volunteer visits and follow-ups
- Acquiring and maintaining sociodemographic data of volunteers
- Volunteer Engagement (managing official social media account, disseminating information to and from volunteers through phone calls)
- Volunteer hospitality for establishing rapport to ensure continued enrolment in the study.
- Research logistics
- Maintaining database of volunteers

Essential qualification required: Masters’ degree in **social-work** with 0- 2 years research experience. Full professional proficiency in English and Kannada.

Desirable qualifications: Good communication skills to coordinate with volunteers, other team members and collaborative institutes.

Remuneration will be based on applicant’s qualifications and prior work experience. No accommodation will be provided. Candidate(s) must be willing to accommodate flexible work timings based on volunteers' availability and be willing to travel within Bangalore.

If you consider yourself a suitable candidate for the job, please mail your CV to nil.cns@iisc.ac.in on or before **30th November, 2021**.

Thank you.
